CIS/CEN 4914 PROJECT PLAN

PROJECT: UF Sports
GROUP: Tahreak Robinson, Timothy Nguyen
ADVISOR: Byron Williams, byron@cise.ufl.edu
SEMESTER: Fall 2020
DATE: 05/16/20

STATEMENT OF WORK:

    Task 1. Determine app functionality

            Plan out the application features.

    Task 2. Construct wireframes

            Create storyboards of the different screens and components for
            the application.

    Task 3. Plan user stories and development schedule

            Plan the different tasks that need to be completed, and split them
            into user stories.
            Delegate tasks in a sensible order to ensure application is complete
            by deadline.

    Task 4. Implement user stories

            Program the application and its features.

    Task 5. Document final results

DELIVERABLES: Project deliverables will consist of:

    1. Wireframes consisting of application design plan

    2. User story board, with tasks to be implemented

    3. Github repository with project code and Read Me file

    4. Final report
